

# OEM Parts from Bradley Pulverizer

Optimal Performance & Long-term Savings

Regular maintenance, service and Original Equipment Manufacturer (OEM) replacement parts help ensure reduced downtime, improved productivity and extend the working life of your equipment.

## Highest Quality Parts

OEM parts meet manufacturer's original specifications and quality standards providing reliable performance and durability.

## Longer Wear Life

Designed and made from alloys specified for the original components for optimal machine operation.

## Design Enhancements

Benefit from replacement parts that incorporate modern upgrades.

## Part Integrity & Compatibility

OEM parts eliminate issues with poorly fitting parts and ensure seamless integration with existing components.

### Optimize Machine Performance

Our experts are available to help you order the right OEM replacement parts designed exactly for your Bradley machine.
